

EILDON HILL RESERVOIR UPGRADE: STAGE 2

Cr Andrew WINES

ENOGGERA WARD

Brisbane City Council is pleased to announce that the second stage of works at Eildon Hill Reservoir is scheduled to commence in mid-February 2021.

This project builds on the works completed in September 2020 to improve community facilities.

The Eildon Hill stage two grant works project will deliver:

- installation of a new walking trail and related signage
- drainage works to facilitate the new walking trail
- building a new rest area with a view over Moreton Bay
- repairs to the stairs off Constitution Road to improve safety for users
- resurfacing of the existing roadway to ensure ongoing pedestrian safety.

During construction, the Eildon Hill Reservoir will remain open to visitors, with the exception of a two day period to accommodate road resurfacing works.

The existing walking trail will not be impacted during construction of the new trail. The new path will be orientated to avoid the removal of any significant existing native trees.

A message from Andrew

The importance of local places for recreation and exercise has never been clearer than during the COVID-19 period. These works on Eildon Hill will make this popular running and dog walking location even more appealing for local recreation further increasing options and facilities in our community.

Council is committed to making our local places even better. This upgrade will allow views in all directions including Cunningham's Gap, Taylor Ranges, D'Aguilar Range, and even the Glasshouse Mountains on a clear day! Investing in recreational sites like Eildon will continue to increase the liveability and character that Windsor is renowned for.

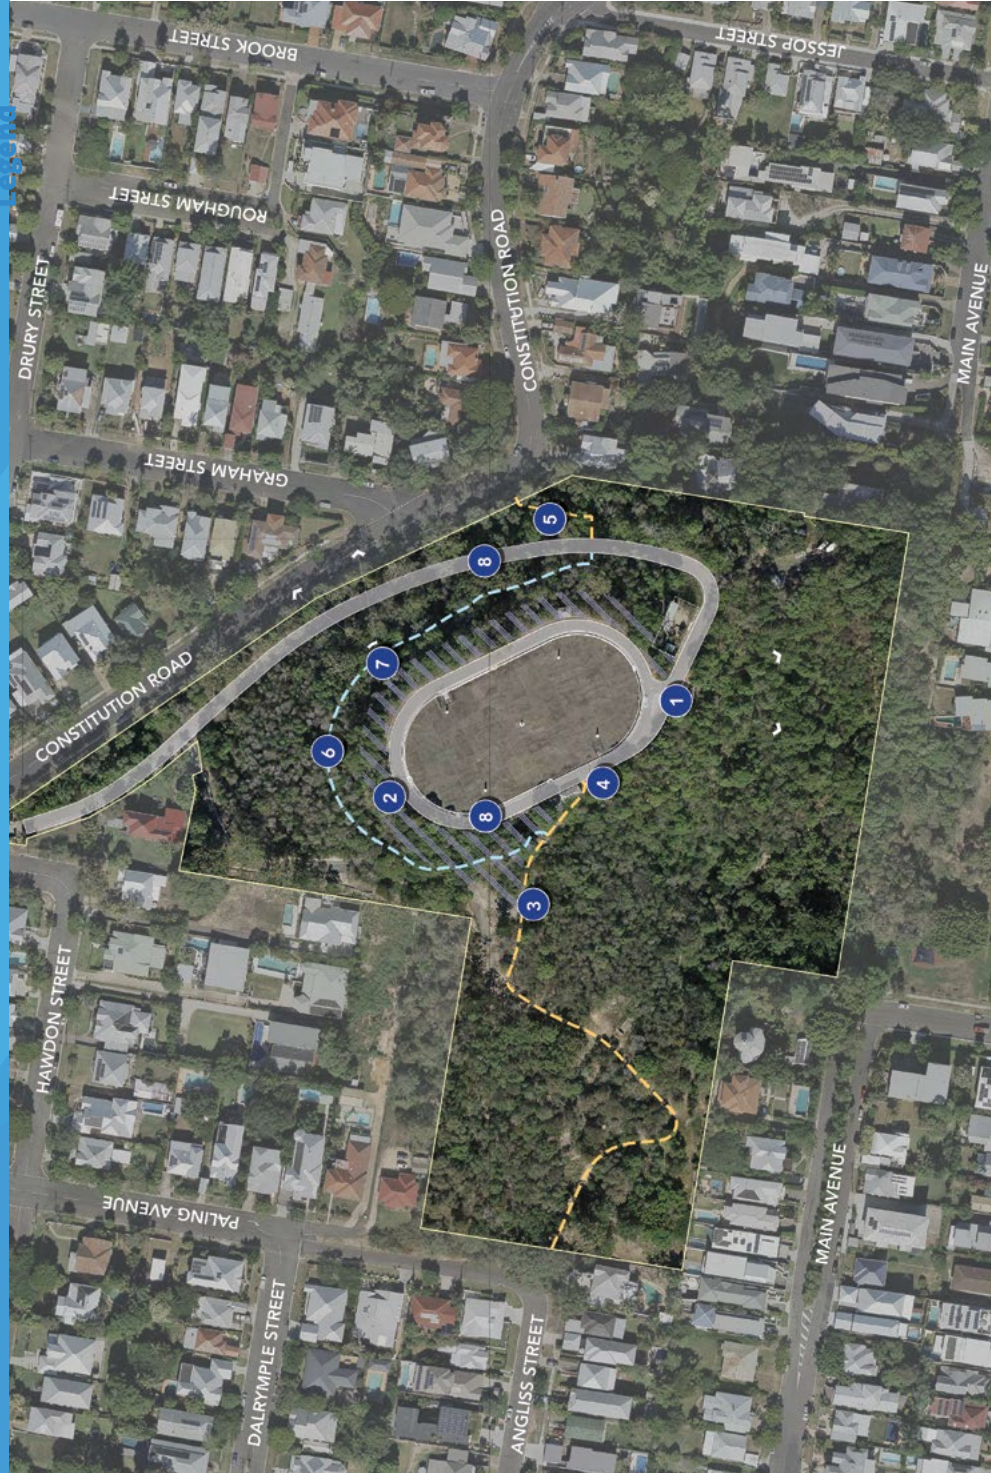

If you have not been up for a while, I encourage you to take your family and friends up once the works are completed. You will not be disappointed.

Cr Andrew WINES
Councillor for Enoggera Ward
